DEPUTY DIRECTOR, JOINT INTELLIGENCE GROUP,
JOINT STAFF

Subject: Transliteration of Foreign Languages

1. As a result of the meetings of the interdepartmental working committee discussing the above subject, CIA has decided to put into effect now the results reached to date; without waiting for decisions on the less common languages.

2. Transliteration of Chinese will be by the Wade-Giles system, of Japanese by the Hepburn system, and of Korean by the Moome-Reischauer system.

3. Transliteration of Russian, Ukrainian, Belorussian, Bulgarian, and Serbian will be in accordance with the enclosures.

4. Within CIA other systems for these languages will be abandoned, and it is hoped the IAC agencies can do likewise if other systems are now used. It is believed that this is agreeable to those in the agencies working on translations. If an agency has any comments on this matter, I shall be glad to receive them.
